**MEDIA RELEASE**

## RedFlow Appoints Australian Sales Manager

RedFlow is increasing its sales focus in the Australian stand alone power systems (SAPS) market following growing interest in its Grid+BOS and Power+BOS energy storage systems.

RedFlow has appointed Mr. Gary Jubb as National Sales Manager, based in Brisbane. Gary will be responsible for dealing with customer enquiries and sales of RedFlow's energy storage systems, and full customer support.

Gary has a strong background in distributed generation. He has worked in the electrical industry for more than thirty years. For the past ten years, he has held senior sales positions within the SAPS and PV industries in both Australia and New Zealand.

RedFlow CEO, Chris Winter, said, "Gary will initially be developing commercial markets for our lead-acid based Grid+BOS and Power+BOS energy storage systems. As more of our high performance zinc-bromine batteries become available, we expect he will increasingly focus on these new products"

Contact details for Gary are:
